

Education Projects

Knapp Hicks and Partners Ltd have extensive experience in the design of educational facilities in both the public and private sectors, and have been appointed as structural engineers on over 140 such developments in the last 10 years.

Recent and relevant examples of our work are as follows, however, many others along with client references can be provided upon request:-

Kemnal College, Chislehurst

New build project consisting of a two storey concrete framed structure, designed in keeping with the existing Listed Buildings already located on the site; accommodating additional classrooms and teaching facilities.

Client: AJP Architects

Paddock School, Wandsworth

Widespread structural refurbishment of existing school, incorporating many internal structural alterations to accommodate current accessibility requirements.

Client: Bailey Associates

Coopers School, Chislehurst, Kent

Knapp Hicks and Partners are currently retained as consultant engineers for Coopers School, having successfully delivered numerous projects for them over a number of years including a new portal framed sports hall, a medium rise teaching block, a new science laboratory, and a steel framed building containing six GTA classrooms. Project values vary up to £3M.

Client: Coopers School

Wind In the Willows Nursery Schools

Knapp Hicks and Partners were retained by Wind in the Willows Ltd as consultant engineers to assist with a national roll out programme for new nursery buildings, under the government initiative, started in 2003, to provide additional nursery school places.

Client: Wind in the Willows Limited

West Thames College, London

We have carried out various projects on the West Thames College campus, including the design of a new roadway through the college, with associated retaining walls and civil engineering works. We have also designed the structural alterations and new atrium roof associated with refurbishment of an existing classroom block, as well the structural support of new plant and equipment.

Client: West Thames College

St. John Rigby College, West Wickenden

Design of a new portal framed sports hall with changing room facilities, in addition to two classroom extensions and refurbishment programs.

Client: AJP Architects
